

The **Economic Outlook Update™** is a review of the state of the economy and forecast for the future that is updated on a quarterly basis. Each quarterly report provides an overview of selected economic factors that prevailed in the respective quarter, as well as a discussion of the factors that are crucial over an extended period of time.

Each quarterly report is available in PDF, Word and Excel formats. In PDF format, the report is about 10 pages of text and 7 pages of graphs and charts. In Word format, the text is approximately 20 pages and the charts and graphs are all available in Excel.

- The following topics are addressed in each Economic Outlook Update™ report:
- General Economic Conditions
  - Interest Rates
  - Consumer Spending and Confidence
  - Bond Markets
  - Manufacturing
  - Real Estate Markets
  - Consumer Prices And Inflation Rates
  - Unemployment
  - The Stock Markets
  - Construction
  - Consumer Confidence and Sentiment
  - Future Outlook
